

TRANSCRIPT PREPARED BY THE CLERK OF THE LEGISLATURE
Transcriber's Office
FLOOR DEBATE

January 24, 2002 LB 82

SENATOR CHAMBERS: Thank you. Members of the Legislature, this has been some dust raising. If you reject the amendment I wanted to let to know you you're not hurting me personally. You're not doing anything to me. But consider, as we move through the session and your constituents perhaps complain to you about somebody misusing...

SENATOR CUDABACK: One minute.

SENATOR CHAMBERS: ...their Social Security number, even if somebody got a ticket for going through a stop light and they get away with it, that's the price you might have to pay in order to protect the integrity of the privacy of citizens, the integrity of the Social Security number. I think you've given Senator Bruning what he needs. He has stood up to me. He has shown that he will challenge Chambers on the floor of the Legislature. Forget all of that and consider the benefit to the citizens to have it brought to their attention, the notification given to judges and even the police that this kind of activity is not to be done. No harm will be done by putting it in the statute. Harm that is going on now can continue to be done because of ignorance on the part of people who ought to know but don't know. Thank you, Mr. President.

SENATOR CUDABACK: Thank you, Senator Chambers. Senator Beutler, followed by Senators Redfield and Bromm.

SENATOR BEUTLER: Senator Cudaback, members of the Legislature, I don't want to infer, and maybe I do this unconsciously when I get involved in a debate, but I don't want to infer that anybody did anything underhanded or illegal or wrong. What I'm trying to talk about is what is the best and fairest practice for us all in terms of how consent calendar is going to work this year. I mean, we really have to make that decision and this, this bill, is kind of a key bill, and, generally speaking, how we're going to deal with "Christmas trees" at the beginning of the session and as we...as we go down towards the end of the session. Clearly, the alternative is here, on this set of bills, to deal with them on consent or to deal with them individually and...and we don't...and we don't...and we may not make that choice. I'm not sure what we're going to do here.
